June Function : Site Visit - Lok Ma Chau Track Laying

Saturday 25th June 2005 am

The 7.4 km Lok Ma Chau Spur Line branches off from the existing East Rail just north of Sheung Shui Station and terminate at a new cross border station at Lok Ma Chau.

The Permanent Way Contract was awarded in Oct 2003 and the physical track installation works has commenced in Feb 2005. This visit would allow the visitors to view the Floating Slab Trackform (FST) completed at Lok Ma Chau Station and the Low Vibration Trackform (LVT) being installed on viaducts. The visitors could also see the installation of turnouts at LMC Crossover and the construction of walkway inside LMC TBM tunnels.

Since LMC is restricted area and visitor will require a Closed Area Permit. For application, each participant has to confirm to CHKPWS his/her name, employer background and contact telephone no. You should also provide a copy of your HKID card by 15 June 2005 fax to Joey Koo at Fax no 2649 7509.

Safety helmet and high visibility vest would be provided on site and all participants should wear appropriate safety shoes.

Exact detail for assembly will be informed

Richard Keefe
Secretary, CHKPWS
